Objective

A highly motivated and passionate Software Engineer with a strong interest in technology and web development. Seeking to expand my expertise and contribute to a dynamic team while gaining hands-on experience in both front-end and back-end development. Eager to apply my skills in creating innovative solutions and driving impactful results

Skills

Technical Skills:

- HTML, CSS, python and django
- Git/GitHub, Version Control
- UI/UX Design Principles
- VS Code

Soft Skills:

- Strong communication and teamwork
- Problem-solving and attention to detail
- Time management
- Adaptability

Experience/Projects

Software Engineer – Inventory Management System
Description: I developed an inventory management system for Happy Hoe Grocery, optimizing product tracking and sales operations across multiple branches. Designed a user-friendly interface with role-based access for managers and sales personnel, enhancing stock level tracking and sales reporting for improved efficiency

Education

Certificate in Software Engineering, Refactory Academy, **2024**
S.6 Graduate, Toggo High and Vocation School, **2023**

Languages

1. English, Fluent
2. Luganda, Fluent
